

Z MASTER® Z400 PRO SERIES

The commercial zero-turn rider with the outstanding power and performance of the Z500 Series — in a more compact size.

33% thicker | **75% stronger**
than ordinary 10-gauge commercial steel used in 7/10 decks

DURABILITY

- 1 Rugged, 7-gauge high-strength steel deck construction with damage-resistant front reinforcement guard
(bull-nose bumper on TURBO FORCE® models)
- 2 Robust 9-3/8" cast iron spindle housings with solid 1" steel spindle shafts
- 3 Extra strong 2" x 2" x 3/16" tubular steel carrier frame
- 4 Heavy-duty caster wheel assemblies with tapered roller bearings

RELIABILITY

- 5 Commercial-grade twin cylinder engines
- 6 Heavy-duty canister air filtration system

- 7 Proven, commercial-grade hydrostatic drive systems
- 8 Semi-pneumatic flat-free caster tires
(TURBO FORCE models only)

PRODUCTIVITY

- 9 Patented TURBO FORCE adjustable discharge baffle
(TURBO FORCE models only)
- 10 High-capacity, 5-1/2" deep deck design
- 11 Twin tanks, 10-gallon fuel capacity
- 12 Comfortabe, extra-large, 1-5/8" diameter adjustable control levers
- 13 Trim side of deck offset for improved trimability

- 14 Easy-access cup holder

AFTER-CUT APPEARANCE

- 15 Maximum dispersion rubber discharge chute
- 16 Super-fast blade tip speed; 18,500+ ft/min
- 17 High-lift, flex-resistant 1/4"-thick, heat-treated steel blades

SAFETY

- 18 Three-position, folding ROPS (OSHA approved)
- 19 Tested to ANSI B71.4 safety standards

Z400 SERIES MODELS

- 21 hp Kawasaki®, gas
- Fabricated 7-gauge steel deck
- 48" and 52" cutting widths

Z450 SERIES MODELS

- 23 hp Kawasaki, gas
- TURBO FORCE® 7-gauge steel deck
- 48" and 52" cutting widths
