

Z MASTER® Z300 PRO SERIES

The business solution for professionals seeking a fast and powerful commercial-grade Z designed to fit through 36" and 42" gate restrictions.

33% thicker | **75% stronger**

than ordinary 10-gauge commercial steel used in 7/10 decks

Z300 SERIES MODELS

- 19 hp Kawasaki®, gas
- Fabricated, 7-gauge steel deck
- 34" cutting width (fits through 36" gate)
- 40" cutting width (fits through 42" gate)

DURABILITY

- 1 Rugged, 7-gauge high-strength steel deck construction
- 2 Robust 9-3/8" cast iron spindle housings with solid 1" steel spindle shafts
- 3 Extra-strong 1-1/2" x 2" x 3/16" tubular steel carrier frame
- 4 Heavy-duty caster wheel assemblies with tapered roller bearings

RELIABILITY

- 5 Commercial-grade twin cylinder engine
- 6 Semi-pneumatic flat-free caster tires
- 7 Commercial-grade, dual-integrated hydrostatic transaxles feature same rotating group as Hydro-Gear® pumps and axial piston motors; include steel cut gears, charge pumps, pressure relief valves and independent oil filters

PRODUCTIVITY

- 8 High-capacity, 5" deep deck design
- 9 Twin tanks, 7.7-gallon fuel capacity
- 10 Comfortable, large, 1-5/16" diameter adjustable control levers
- 11 Convenient foot pedal deck lift

AFTER-CUT APPEARANCE

- 12 Maximum-dispersion rubber discharge chute
- 13 Super-fast blade tip speed; 18,500+ ft/min
- 14 High-lift, flex-resistant 1/4"-thick, heat-treated steel blades

SAFETY

- 15 Tested to ANSI B71.4 safety standards
