

21" COMMERCIAL WALK-BEHINDS

HEAVY-DUTY MOWERS Professionals trust these industry-leading, heavy-duty walk-behind mowers for rugged, dependable performance and outstanding mulching and bagging results.

DURABILITY

- 1 The industry's thickest deck – 1/4" thick, corrosion-resistant cast aluminum
- 2 The industry's largest crankshaft – 25 mm diameter
- 3 Commercial-grade steel wheels with ball bearings

RELIABILITY

- 4 Commercial-grade Kawasaki® KAI and Honda GXV overhead valve engines
- 5 Long-lasting 8" x 2" radial-style, semi-pneumatic rubber tires
- 6 Dual element air cleaner; paper with foam pre-cleaner
- 7 Rigid, single-piece handle, 1" diameter steel tube

PRODUCTIVITY

- 8 Fast 4.2 mph forward ground speed
- 9 Large, one-gallon fuel tank (*Kawasaki models*)
- 10 Super-fast blade tip speed; 18,000+ ft/min
- 11 Hassle-free BBC (blade brake clutch) design stops blade from spinning without killing the engine (*when equipped*)

AFTER-CUT APPEARANCE

- 12 Toro's patented Recycler® mulching technology cuts and recuts clippings, then drives them deep into the turf for a just bagged look (*not available on Hi-Vac Bagger*)
- 13 Hi-Vac Bagger design features a unique, tapered deck with generous discharge tunnel that promotes superior air flow and maximum suction

SAFETY

- 14 Tested to ANSI B71.4 safety standards

21" HEAVY-DUTY MODELS

- 6 hp Kawasaki® KAI and 5.5 hp Honda® GXV
- Self-propelled zone start and self-propelled BBC
- Recycler® mulching and rear bagger standard

21" HEAVY-DUTY HI-VAC BAGGER MODEL

- 6 hp Kawasaki KAI
- Self-propelled BBC only
- Dedicated rear collection system

PT21 TRIM MOWERS An outstanding combination of cut, quality and price, these lightweight 21" mowers are ideal for finish and trim work.

DURABILITY

- 1 Rust-proof cast aluminum deck
- 2 Commercial-grade steel wheels with ball bearings

RELIABILITY

- 3 Commercial-grade Kawasaki® overhead valve engine
- 4 Long-lasting 8" x 2" radial-style, semi-pneumatic rubber tires

PRODUCTIVITY

- 5 Exclusive Personal Pace® control system – the quicker you walk, the more the control bar compresses and the faster you go (*Self-Propelled model only*)
- 6 Forward ground speed up to 4.0 mph
- 7 3-in-1 deck design: mulch, side discharge or bag (*bagging assembly sold separately*)

AFTER-CUT APPEARANCE

- 8 Super Recycler® cutting system injects minced grass clippings deep into the turf
- 9 Optional rear bag collection system

SAFETY

- 10 Tested to ANSI B71.4 safety standards

PT21 MODELS

- 6 hp Kawasaki
- Hand-push and Personal Pace® zone start
- Super Recycler® mulching and side discharge standard
