

Why Choose Toro® Blades and Belts?

Toro blades and belts are made specifically for Toro mowers, which ensures they conform to the equipment and perform as intended. Toro blades are crafted from heat-treated alloy steel to resist flexing, abrasive wear, and provide a crisp, clean cut. Our belts are manufactured from the highest-quality materials to tight tolerances to provide optimum fit, minimize slippage and ensure dependable performance.

CUSTOMER CARE

On The Phone: Toro's Contact Center

Get answers to your questions about equipment, parts, service and other information important to you. Call 800-348-2424 and talk to one of our Toro Customer Care team members seven days a week during expanded business hours.
