

Z Master G3 Commercial Series mowers deliver impressive commercial-grade results and durability all at an outstanding value.

COMMERCIAL GRADE DURABILITY

From our 7-gauge high strength steel TURBO FORCE cutting deck and massive 9 3/8" diameter cast iron spindle housings, to our rugged 3" x 1.5" x 12 gauge tubular carrier frame, to our responsive 12cc unitized hydraulic pumps and 14.5 cubic-inch motors, Z Master G3 Commercial Series were built to work hard.

PROFESSIONAL RESULTS EVERY TIME

TURBO FORCE 5.5" deep cutting decks are valued by landscape professionals world-wide for the outstanding quality of cut they leave behind. Featuring super fast 18,300+ ft./min. blade tip speed, high-lift, flex-resistant 1/4" thick heat-treated steel blades and our patented adjusted discharge chute, nothing cuts as fast or as well as TURBO FORCE.

BACKED BY A BRAND YOU CAN COUNT ON

Like every other piece of landscape contractor equipment we build, Z Master G3 Commercial Series mowers are backed by Toro and our factory trained independent dealer network. When it comes to service, parts and warranty coverage, nobody does it better than Toro. Nobody.

Z MASTER® G3 COMMERCIAL SERIES

RELIABILITY TO THE CORE

Toro Z Master® G3 Commercial Series come with a four-year/1200 hour limited warranty, two-year commercial engine warranty and lifetime frame warranty. See your Toro dealer for details.

TURBO FORCE® DECKS

Rugged deck shell constructed of 7-gauge high-strength steel is thicker and stronger than ordinary commercial steel decks. At 5-1/2" deep, the high-capacity deck also resists impact and abrasion damage.

FEATURES

COMMERCIAL ENGINES

Powerful Kawasaki® commercial-grade engines provide professional-quality performance. Heavy-duty canister air filtration system protects engine from contaminants and prolongs product life.

TOUGH SPINDLE ASSEMBLIES

Toro's rugged spindle assemblies survive impacts that would destroy lesser spindles. A stout cast iron housing with a massive base absorbs impact loads and distributes them across a broader area of the deck shell.

OPERATOR COMFORT

The thick cushions and padded armrests improve operator productivity by reducing fatigue, and the standard lift assist pedal allows for fast and easy deck height adjustments.
