

Z MASTER®

Z500 SERIES

Trusted by landscape professionals for years, these models continue to represent a terrific value in true commercial-grade equipment.

TURBO FORCE® CUTTING TECHNOLOGY

Along with satisfied customers, unmatched productivity and improved profitability, rugged durability also makes TURBO FORCE the leading choice of landscape professionals. From the rugged bull-nose bumper, to the industry's toughest spindle assemblies, to the 7-gauge, high-strength steel deck, TURBO FORCE decks are built to handle the most demanding conditions and keep you working day in and day out.

OPTIMUM OPERATOR COMFORT

Custom seat provides improved comfort and reduces fatigue, while the convenient foot-lift pedal simplifies deck raising.

COMMERCIAL GRADE RELIABILITY

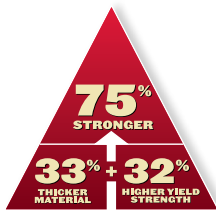

Powerful Kawasaki® and Kohler® engines provide professional-quality performance and the commercial grade hydrostatic drive system delivers proven reliability.

TORO®

Count on it.

MODEL	74295 (52")	74296 (60") 74297 (72")
Engine*	27 hp Kohler® Command Pro	27 hp Kohler Command Pro
Drive Tires	23" x 9.5" - 12"	24" x 12" - 12"
Caster Tires	13" x 6.5" - 6" pneumatic	13" x 6.5" - 6" pneumatic
Fuel Capacity	10 gallons	10 gallons
Digital Hour Meter	Standard	Standard
Electric Start	Standard	Standard
Max Ground Speed (Fwd)	8.5 mph	10 mph
Hydraulic Drive System	Independent pumps & wheel motors	Independent pumps & wheel motors
Pump	10cc/rev	12cc/rev
Wheel Motor	14.5 cir motor	14.5 cir motor
Deck Widths	52"	60" / 72"
Cutting Deck	Patented TURBO FORCE	Patented TURBO FORCE
Deck Depth	5.5" deep	5.5" deep
Deck Construction	7-gauge high-strength steel	7-gauge high-strength steel
Bull-nose Bumper	7-gauge high-strength steel	7-gauge high-strength steel
Adjustable Discharge Baffle	Standard - Patented	Standard - Patented
Rubber Discharge Chute	Standard	Standard
1" Heavy-Duty Spindle Shaft	Standard	Standard
Spindle Bearings	Greasable	Greasable
Deck Lift Assist Pedal	Standard	Standard
Cutting Height	1.5" - 5.0"	1.5" - 5.0"
Anti-Scalp Rollers	3 standard, 2 optional	4 standard, 2 optional (60") 6 standard (72")

TURBO FORCE® DECKS – UNMATCHED DURABILITY

The fabricated deck shell of the TURBO FORCE deck is constructed of 7-gauge, high-strength steel that's 33% thicker and 32% higher in yield strength than ordinary 10-gauge commercial steel used in 7/10 decks. The combined effect is a deck shell that is 75% stronger, so it easily handles the most demanding conditions and resists damage from impacts and abrasion. The deck is further reinforced by the bull-nose front bumper, a ½" trim side wear guard, and a 3/8" thick plate around the discharge opening.

Products depicted on this sell sheet are for demonstration purposes only. Actual products offered for sale may vary in design, required attachments and safety features.

* The gross horsepower of these engines was laboratory rated by the engine manufacturer in accordance with SAE J1940. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers will be significantly lower. The engine horsepower is reduced further as a result of the conversion to operate on propane.

Z500 SERIES FEATURES

COMMERCIAL ENGINES

Powerful and reliable commercial-grade Kohler® engines provide professional-quality performance. Heavy-duty canister air filtration system protects engine from contaminants and prolongs product life.

TOUGH SPINDLE ASSEMBLIES

Toro's rugged spindle assemblies survive impacts that would destroy lesser spindles. A stout cast iron housing with a massive base absorbs impact loads and distributes them across a broader area of the deck shell.

See dealer for details on all warranties.

OPERATOR COMFORT

The thick cushions and large bolsters of the custom-designed seat improve operator productivity by reducing fatigue, and the standard lift assist pedal allows for fast and easy deck height adjustments.
