

Get the **competitive edge** other professionals have found in a Toro® Dingo® compact utility loader.

Watch your productivity skyrocket.

Get rid of rakes, shovels, wheelbarrows, axes, pry bars and other time-wasting hand tools. When you reduce hand labor with a Toro Dingo, you solve all kinds of problems. When a compact utility loader shows up on your site, it shows up on your bottom line. It's an investment that pays back fast — giving you more time, healthier crews, and top performance.

You'll **save** on labor costs from day one. Compare the costs of hand labor to the costs of a Toro Dingo and you'll see what it will do for your bottom line right away.

Add a Toro Dingo to your crew and watch what happens.

One guy can do the work of three. Jobs that used to take all day get done in a fraction of the time. You see less downtime and happier employees, as well as reduced turnover in your crew. And suddenly, you're seeing more time for more (and bigger) projects and a far more profitable year.

Compare the costs ... and see what a Dingo will do for your bottom line ...

Costs per hand laborer

	Weekly*	Monthly
Wage	\$360.00	\$1,559.98

Leveler	\$3.13	\$13.55
Adjustable Forks	\$3.81	\$16.50
Fuel & Maintenance	\$46.15	\$200.00
Weekly Total*	\$204.48	
Monthly Total*		\$886.00
Annual Total*		\$10,632.00

*Based on 2006 MSRP financed at 5.9% for 48 months

"My payroll is down \$10,000 from last year after six months, and I would definitely attribute that directly to the Toro Dingo. You can't even estimate how much it has helped. It's amazing. I can use the compact utility loader to auger holes instead of employees hand-digging them and they're not nearly as tired. Their productivity is up even in the heat of summer, and it probably brought in an extra \$3,000 to \$4,000 a week."

TX 413 Bucket	\$410				
Trailer	\$4,414				
Total	\$25,166				

"The Toro Dingo definitely increases revenue per rental. If a customer comes in and needs to dig a trench, plant a tree and move some dirt, he needs three machines. The Dingo can do all three on one platform. The customer saves money overall and we make more money on one transaction."
