GreenCare for Troops provides complimentary basic lawn care and landscape services – lawn and shrub fertilization, mowing, pruning, trimming – to deserving military families and disabled veterans.

The program, managed by the non-profit Project EverGreen, is nationwide and is available to military families with a deployed family member and post-9/11 veterans with a service-connected disability. A sister program – SnowCare for Troops – is also available in snow states.

GIVE THE GIFT OF GREEN SPACE

Our military heroes give up so much for us, let's give back what we do best. Healthy yards provide social and rehabilitative benefits for veterans and their families.

Why it matters...

"My husband is in Afghanistan. Three men are currently fully servicing my lawn so that I can focus on my four children. Thank you! This is a blessing."

CHRISTINA P. Florida

"We could not get through the spring and summer without your help. Thank you for being there for disabled veterans like my husband. Your volunteers enable us to stay in our home as we begin making our home accessible for my husband. You are a blessing. The teams you sent out to work with us are very nice young men."

LEESA H. Virginia

Why I volunteered...

"GreenCare for Troops gives all of us a chance to demonstrate our gratefulness for the service our military families provide our families every day. It allows us to ease the burden they carry and show them that the sacrifices they are making are not going unnoticed and that we appreciate them and want to do what we can to help."

PHIL FOGARTY Weed Man | Cleveland, Ohio

"It is a great honor to be able to help the families of these amazing military personnel fighting for our country. Being able to provide a nice green, weed-free lawn for the service members families to play on while they are gone is the least we can do to thank them for their service."

NATHAN NEWLANDS Spring Touch Lawn & Pest Control | Mankato, Minnesota

"Doing the job you love and knowing you're helping a military family at a time they need it most is all-around rewarding. The green space around a home is where memories are made – barbecuing, kids playing, pets running, gardening, and much more. What better way to show our gratitude to the men and women serving our country, than by beautifying the lawn and landscape around their home!"

JENNA RICHARDSON Lawn Dawg | Nashua, New Hampshire

SPONSORSHIP OPPORTUNITIES AVAILABLE,
CONTACT PROJECT EVERGREEN FOR MORE INFORMATION.

GREENCARE FOR TROOPS IS PRESENTED BY NUFARM, TORO, AND BOSS.
