Parts Catalog

Z Master® Professional 5000 Series Riding Mower with 60in TURBO FORCE® Side Discharge Mower

Model No. 75951—Serial No. 402100000 and Up

Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form a:b. The a represents the reference number of the entire service assembly and the b represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually. Reference numbers of this type appear in illustration and in parts lists.

Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form nX y. The n represents the quantity of the part, the X is the multiplication symbol, and the y represents the reference number.

For example, in an illustration, the reference number 2X 37 means that two of the parts identified by reference number 37 are indicated.

This technical drawing is an exploded view of a mechanical assembly, likely a pump or engine component. It shows the following parts and their assembly sequence:

- Part 1:** The main housing or base plate, shown at the bottom.
- Part 2:** A fan or impeller assembly, shown at the top right.
- Part 3:** A circular cover or end plate, shown at the bottom right.
- Part 4:** A small pin or clip, shown on the right side.
- Part 5:** A screw or bolt, shown at the top right.
- Part 6:** A washer or spacer, shown at the top right.
- Part 7:** A series of seals or gaskets, shown in the middle right.
- Part 8:** Multiple small components, including O-rings and pins, shown in several locations.
- Part 9:** A central shaft or rotor assembly, shown in the middle left.
- Part 10:** A bearing or support component, shown in the middle left.
- Part 11:** A small pin or clip, shown on the left side.
- Part 12:** A long, thin component, possibly a piston or rod, shown in the middle left.
- Part 13:** A small pin or clip, shown on the left side.
- Part 14:** A small pin or clip, shown on the left side.
- Part 15:** A large, ribbed component, possibly a cylinder or bellows, shown in the middle right.
- Part 16:** A small pin or clip, shown on the left side.
- Part 17:** A small pin or clip, shown on the left side.
- Part 18:** A small pin or clip, shown on the left side.
- Part 19:** A small pin or clip, shown on the right side.
- Part 20:** A small pin or clip, shown on the left side.
- Part 21:** A small pin or clip, shown on the left side.
- Part 22:** A small pin or clip, shown on the left side.
- Part 23:** A small pin or clip, shown on the right side.
- Part 24:** A small pin or clip, shown on the right side.

The diagram uses dashed lines to indicate the assembly path and alignment of the components.
