Accessories

Description	Model / Parts No.	Description	Model / Parts No.
110 Vac Electric Starter Kit	Model No. 38039	Snow Cab	Part No. 68–9500
Light Kit		Weight Kit	
(Optional Model No. 38590 Only)		(Required with Snow Cab)	Part No. 74–1190
(Standard Model No. 38591 Only)	Part No. 66–7941	Drift Breaker	Part No. 66–7980
Tire Chain Kit			
(For Std. Axle, Not For Use With Differential Kit	Part No. 63–3040		
Differential Kit			
(Model No. 38591 Only)	Model No. 38038		

Part Description Abbreviations

Part descriptions in this catalog may include the following abbreviations.

Abbreviation	Meaning	Abbreviation	Meaning
AR	as required	HJ	hex jam
ASM	assembly	HOC	height-of-cut
CARR	carriage	HS	hex socket
DEG	degrees	HSBH	hex socket button head
FH	flat head	HSFH	hex socket flat head
GA	gauge	HSH	hex socket head
HF	hex flange	HWH	hex washer head
HFW	hex flange washer	HWHTF	hex washer head thread forming
HH	hex head	INC	incorporated
HHF	hex head flange	LH	left hand
HHST	hex head self tapping		

PH pan head
 PPH Phillips pan head
 PTO power take off
 RH right hand
 SFH slotted fillister head
 SH square head
 SHWH slotted hex washer head

SPH slotted pan head
 STD standard
 TAP self tapping
 TH truss head
 TTH Torx truss head
 WH wing head

Important Format Explanations

This catalog uses special formats to convey information in illustrations and parts lists. Specifically, one format is used in conjunction with service assemblies and another with quantities associated with reference numbers.

Service Assemblies

Parts within service assemblies have reference numbers in the form *X:Y*. *X* is the reference number of the service assembly and *Y* is a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually.

Reference numbers of this type appear in part lists and as callouts in illustrations.

Reference Numbers with Quantities

Illustrations may have a quantity in parentheses next to a reference number, in the form *X (Y)*. *X* is the reference number. *Y* in parentheses is the quantity of the part identified by the reference number.

For example, the illustration callout 4 (2) indicates that two parts are used in that instance.
