Riding Mower

Model No. 74675—Serial No. 316000001 and Up

Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form a:b. The a represents the reference number of the entire service assembly and the b represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually. Reference numbers of this type appear in illustration and in parts lists.

Reference Numbers Indicating Quantity

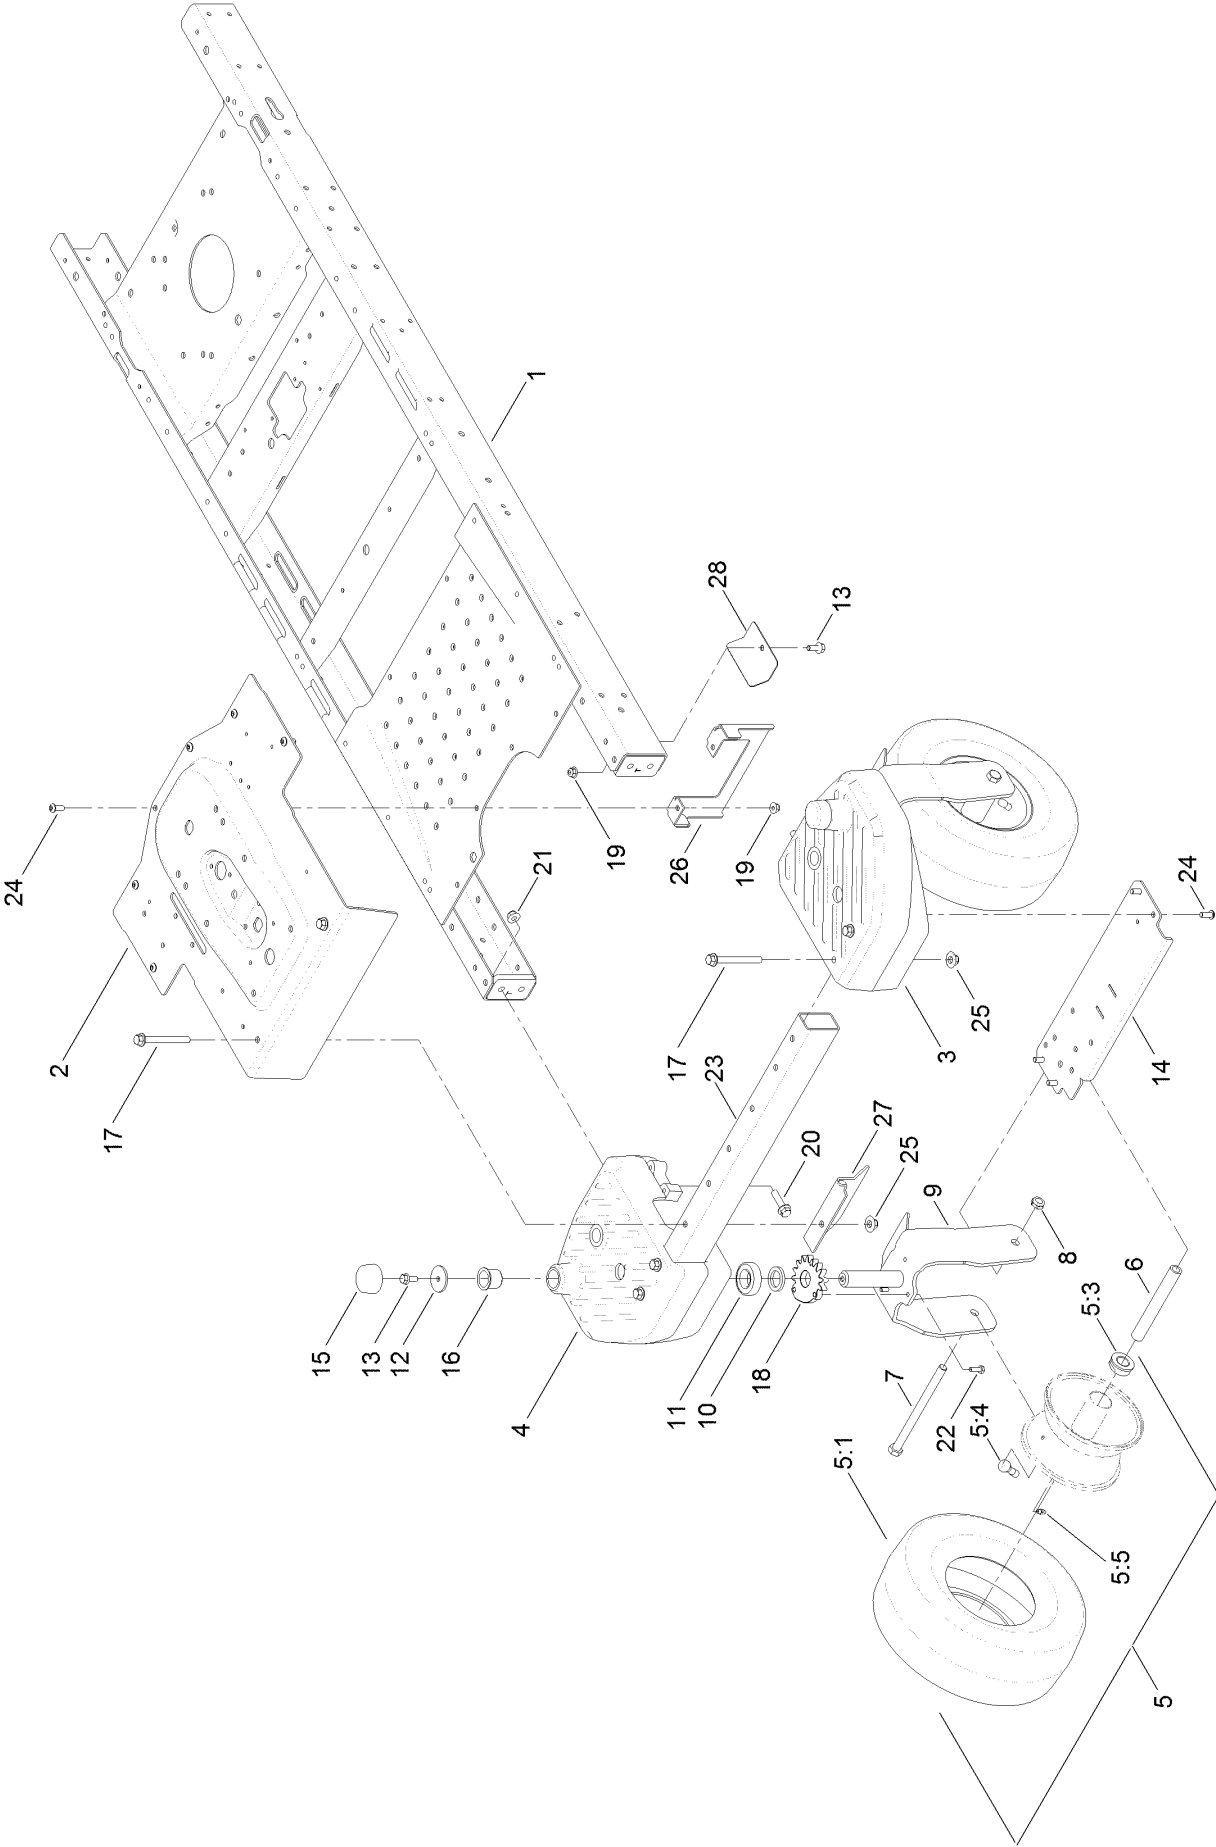

In an illustration, if a reference number indicates more than one part, the reference number has the form nX y. The n represents the quantity of the part, the X is the multiplication symbol, and the y represents the reference number.

For example, in an illustration, the reference number 2X 37 means that two of the parts identified by reference number 37 are indicated.

This exploded view diagram illustrates the assembly of a mechanical device. The components are numbered as follows:

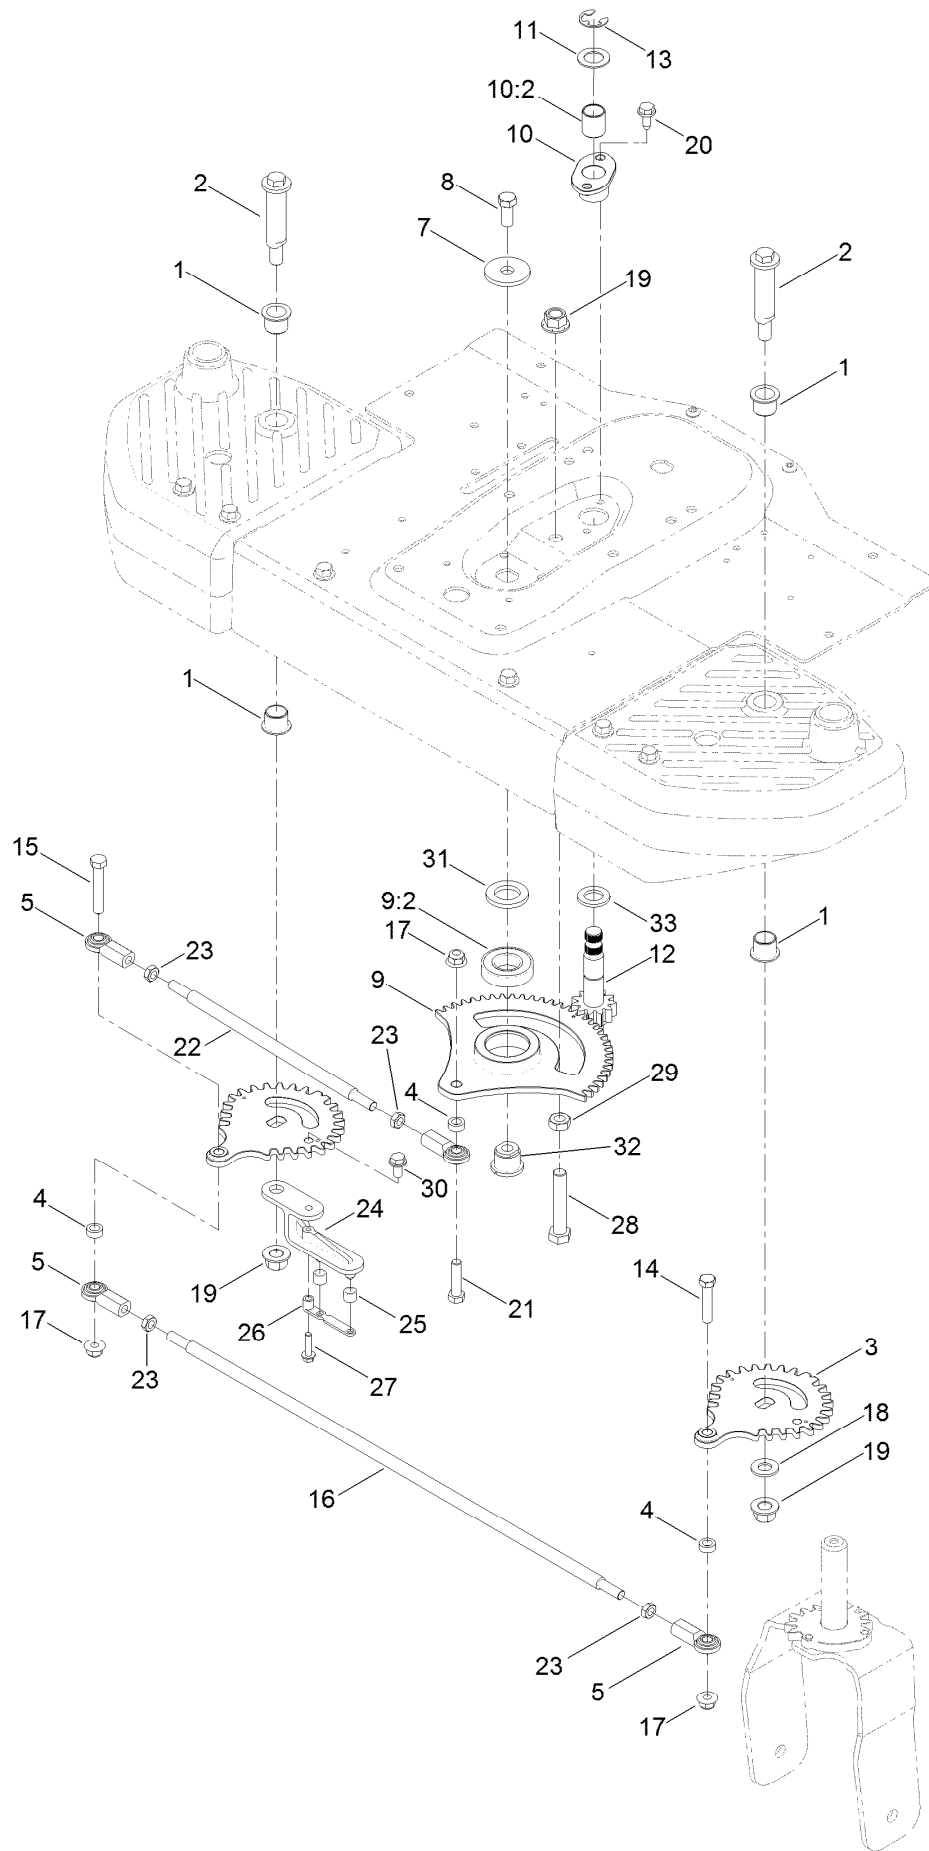

- 1**: The main rectangular housing or frame.
- 2**: Two electrical connectors or sensors mounted on the side of the housing.
- 3**: A flat rectangular plate or cover.
- 4**: A small cylindrical pin or connector.
- 5**: Four small circular fasteners or washers used for mounting.
- 6**: Two coiled springs, one attached to the top plate and the other to the bottom of the housing.
- 7**: A long cylindrical rod or shaft.
- 8**: A long cylindrical rod or shaft, similar to component 7 but with a different end profile.

Dashed lines indicate the alignment and assembly path for each component relative to the main housing (1).

Neutral Return Assembly (continued)

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or engine part. The central component is a cylindrical housing (9) with a flange (10) and a mounting bracket (11). Various sub-assemblies are shown in their relative positions, indicated by dashed lines. Key components include: a top cover (2) with screws (1); a rectangular plate (3) with a central opening (4); a small rectangular block (5); a circular flange (6) with a central hole (7); a long shaft (36) with a gear (38) and a pin (39); a large gear (34) with a central shaft (35); a complex assembly (13) with a central shaft (14) and a flange (15); a circular plate (16) with a central hole (17); a large circular flange (18) with a central hole (19); a small rectangular block (20) with a central hole (21); a large circular flange (22) with a central hole (23); a small rectangular block (24) with a central hole (25); a large circular flange (26) with a central hole (27); a small rectangular block (28) with a central hole (29); a large circular flange (30) with a central hole (31); a small rectangular block (32) with a central hole (33); a large circular flange (34) with a central hole (35); a small rectangular block (36) with a central hole (37); a large circular flange (38) with a central hole (39); and a small rectangular block (40) with a central hole (41).
