**Situation** Important Information

Toro has discontinued the production of the following Groomer Drive Kit model numbers: 04259, 04260, 04709, and 04710

**Corrective Action** Due to the discontinued production of Groomer Drive Kit models 04259, 04260, 04709, and 04710, Toro has created **Legacy Groomer Drive Shaft and Pulley Service Kits**. These kits allow the distributor and customer to continue servicing their existing groomer drive kits when repairs are needed.

If drive and/or pulley replacement parts are required on the discontinued Groomer Drive Kit models, please refer to Table 1, Table 2, or Table 3. When you order replacement parts, you may notice that certain part numbers are obsolete or that no replacement parts are available, as inventory is depleted. When this situation arises, inform distribution parts channels, customers, and sales staff of the new service kits indicated in the following tables:

**Table 1 (Obsolete Part No. 117-6794 and 120-3230)**
