

PART NO. 56-2530

INSTALLATION
INSTRUCTIONS

FUEL FILTER KIT

1. Stop engine. Remove key from switch or pull wire off spark plug.
2. Remove cap from fuel tank and use a pump type syphon to drain fuel into a clean gas can.
3. Remove hose clamps securing existing fuel line to mower carburetor and fuel tank.

Note: Clamp used to secure fuel line to carburetor is slightly smaller.

4. Secure new fuel lines to fuel filter with clamps as shown in illustration. Secure fuel lines to carburetor and fuel tank.
