BEFORE OPERATING**

## ASSEMBLING HANDLE TUBE

1. Trimmer should appear as shown in Figure 1 when fully assembled.

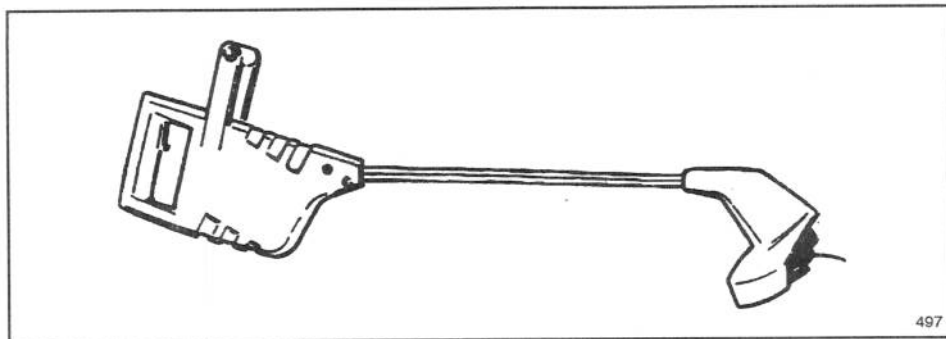

Figure 1

2. Remove hang tag from connector plug extending out of battery housing. **Make sure connector plug does not pull back into housing (Fig. 2).**

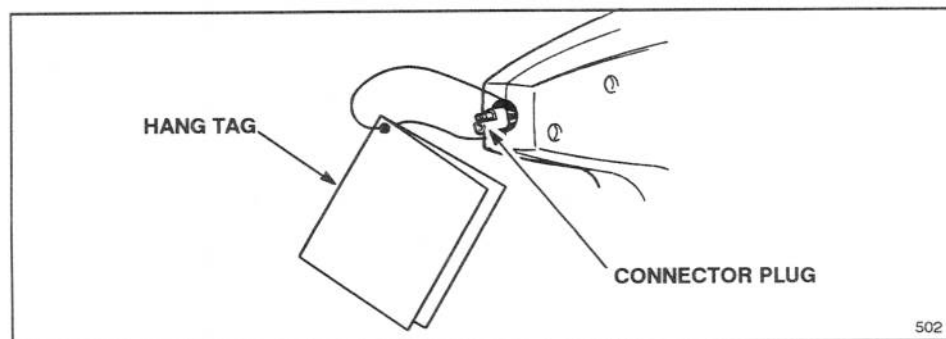

Figure 2

3. Grasp handle tube firmly with one hand and the connector plug extending out of housing with the other (Fig. 3).

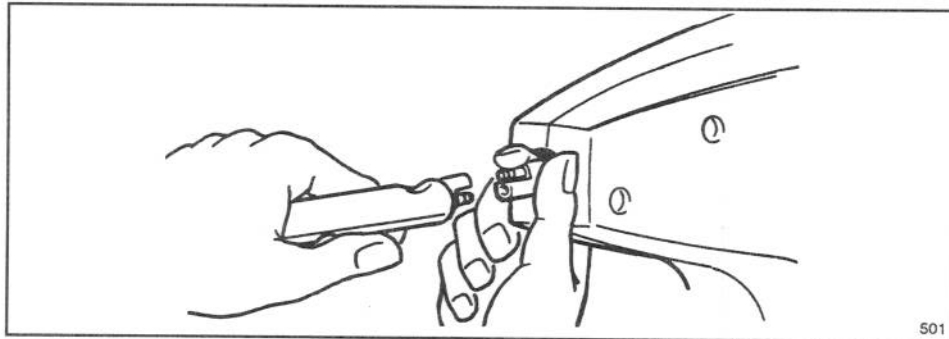

Figure 3

4. Connect plug in battery housing with connector plug extending out of tube (Fig. 4). **Be sure connectors are securely connected to one another before inserting tube into housing.**

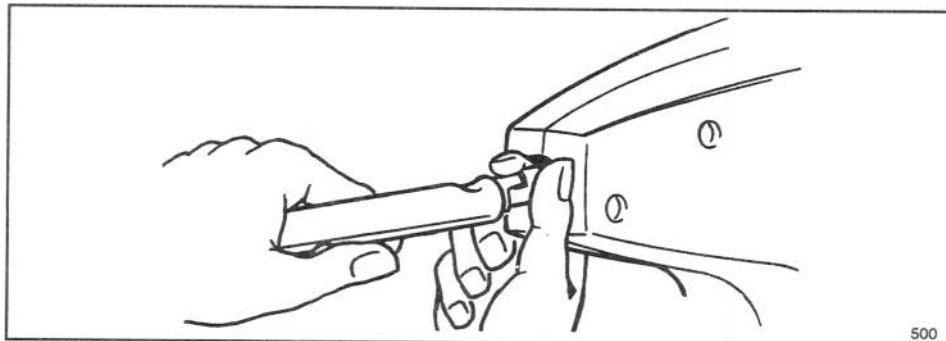

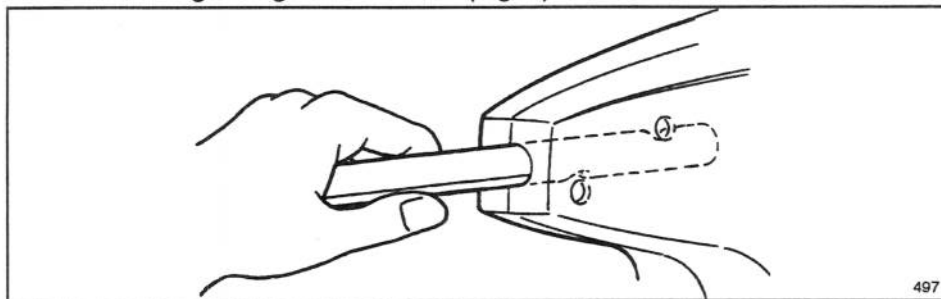

Figure 4

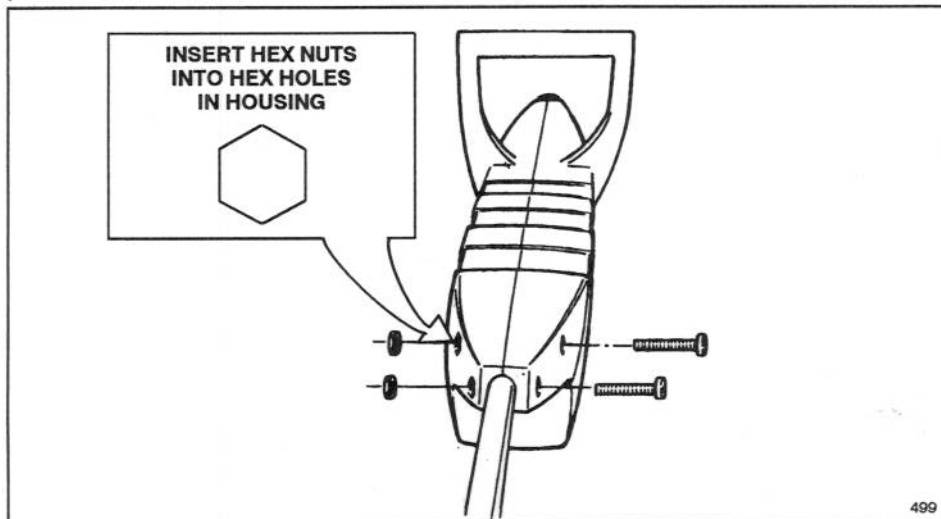

5. Grasp handle tube firmly and slide tube into battery housing. Align screw holes in housing with grooves in tube (Fig. 5).

**Figure 5**

6. Secure battery housing to tube using the (2) screws and hex nuts supplied (Fig. 6).

**Note:** Rear screw installation will be easier if you use a blunt object such as a pencil eraser to hold the rear nut in place while installing the screw.
