

Model No. 139-6659

Installation Instructions

Important: This kit does not come with the recycler blades.

Loose Parts

Use the chart below to verify that all parts have been shipped.

Procedure	Description	Qty.	Use
1	No parts required	-	Raise the mower for access (GrandStand mowers only).
2	No parts required	-	Prepare the machine.
3	No parts required	-	Remove the existing baffles (for mower decks with existing baffles).
4	No parts required	_	Remove the deck fasteners and discharge baffle (for Z Master 4000 mower deck).
5	No parts required	-	Remove the existing discharge chute.
6	No parts required	-	Drill holes (for G3 mower decks).
7	Discharge plate Cover plate Carriage bolt (3/8 x 1-1/4 inches) Carriage bolt (5/16 x 7/8 inch) Small flange nut (3/8 inch) Flange nut (5/16 inch) Large flange nut (3/8 inch) Carriage bolt (3/8 x 1 inch)	1 2 1 2 1 2 2 2	Install the discharge plate.
8	Left baffle Center baffle Right baffle Small flange nut (3/8 inch) Carriage bolt (3/8 x 1 inch) Bolt (3/8 x 1 inch) Large flange nut (3/8 inch)	1 1 7 6 2 1	Install the baffles.
9	Kickers Carriage bolt (5/16 x 7/8 inch) Locknut (5/16 inch)	2 4 4	Install the kickers (for 72-inch mower decks).
10	No parts required	-	Tighten all the fasteners.
11	Recycler blade (sold separately)	3	Install the recycler blades.

1

Raising the Mower for Access

GrandStand Mowers Only

No Parts Required

Procedure

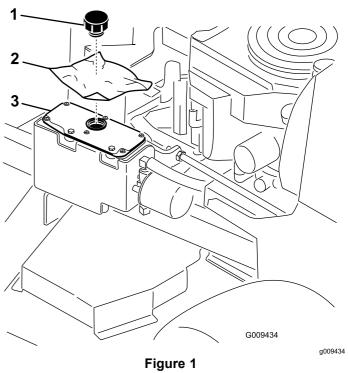

You can raise the front of the mower and support to access under the machine for maintenance.

A WARNING

The machine could fall onto someone and cause serious injury or death.

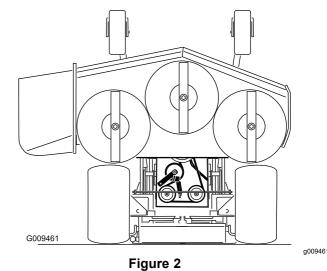

- Always shut off the engine, engage the parking brake, and remove the key before performing any maintenance on the mower.
- Use extreme caution when the machine is raised and supported on its back. The blades and moving parts are exposed and could cause injury.
- Use this position only for cleaning, removing blades or baffles, and maintenance.
- 1. Park the machine on a level surface, disengage the PTO, and engage the parking brake.
- 2. Shut off the engine, remove the key, and wait for all moving parts to stop before leaving the operating position.
- 3. Remove the battery from the machine; refer to the *Operator's Manual*.
- 4. Raise the mower deck to the highest position.
- 5. Drain the fuel from the fuel tank; refer to Draining the Fuel Tank in the *Operator's Manual*.
- 6. Remove the hydraulic-tank cap and place a piece of plastic over the opening and install the cap.

This seals the hydraulic tank and prevents fluid from leaking.

Grandstand mowers only

- 1. Cap 3. Hydraulic tank
- 2. Piece of plastic
- 7. With 2 people, raise the front of the mower so that it rests on the drive tires and with the platform in the upright position.

GrandStand mowers only

- 1. Ensure that you remove the battery.
- 2. With two people, lift the front end of the mower (ensure the mower deck is in the highest position)

2 Preparing the Machine

No Parts Required

Procedure

- 1. Disengage the PTO, move the motion-control levers to the NEUTRAL-LOCK position, and engage the parking brake.
- 2. Shut off the engine, remove the key, and wait for all moving parts to stop before leaving the operating position.
- 3. Repair all bent or damaged areas of mower deck and replace any missing parts.
- 4. Clean the machine of any debris on the deck to ease installation.
- 5. Remove the existing blades; refer to the Operator's Manual.

Removing the Existing Baffles

For Mower Decks with Existing Baffles

No Parts Required

Procedure

Note: Remove the nuts first before removing bolts.

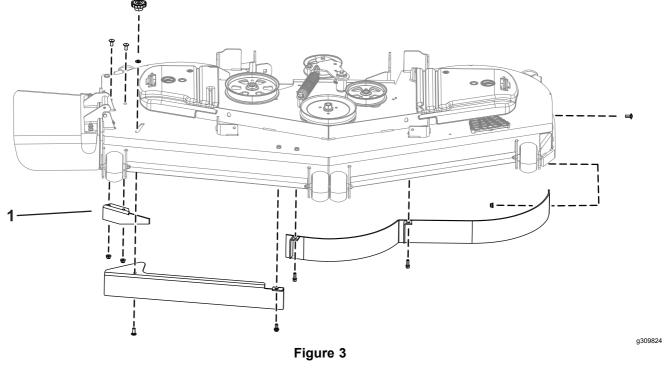

- 1. Remove the flange nuts holding the baffles in place (Figure 3).
- 2. Remove the cam lock and washer by unscrewing it from the adjustable flow baffle (Figure 3).

Note: For certain models of mower decks, remove the nut, knob, and washer if a cam lock is not present.

3. Remove the bolts holding the baffles in place (Figure 3).

Note: Save the baffles and hardware.

 After removing the discharge baffle, install the nuts and bolts back into the mower deck (Figure 3).

1. Discharge baffle

4

Removing the Deck Fasteners and Discharge Baffle

For Z Master 4000 Mower Decks

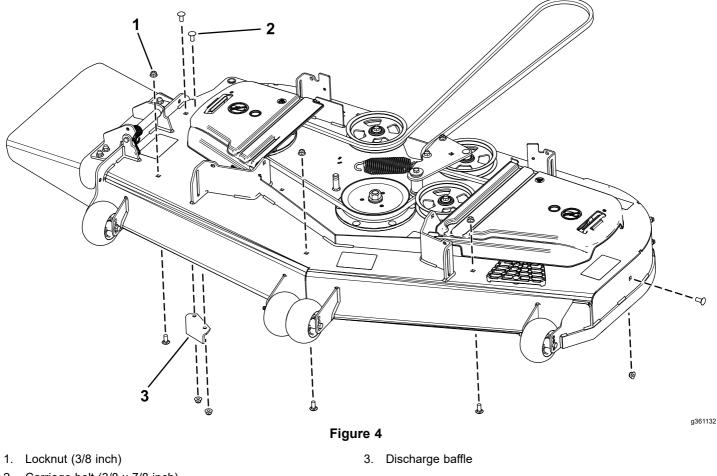

No Parts Required

Procedure

Remove the 6 carriage bolts (3/8 x 7/8 inch), 6 locknuts (3/8 inch), and discharge baffle from the mower deck (Figure 4).

After removing the discharge baffle, install the 2 carriage bolts (3/8 x 7/8 inch) and 2 locknuts (3/8 inch) back into the mower deck (Figure 4).

Retain the fasteners and discharge baffle for converting back to side discharge.

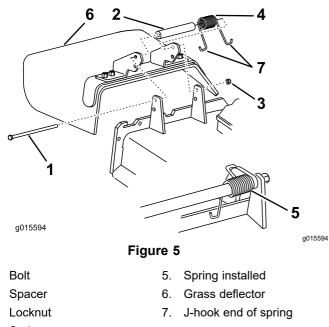

Removing the Existing Discharge Chute

No Parts Required

Procedure

- 1. Remove the locknut, bolt, spring, and spacer holding the deflector to the pivot brackets (Figure 5).
- 2. Remove the grass deflector (Figure 5).

Note: Retain the hardware that you removed during this procedure so that it is available for changeover.

4. Spring

1. 2.

3.

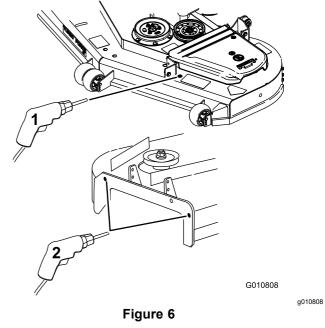

For G3 Mower Decks

No Parts Required

Procedure

- 1. Check the hole diameters in the locations shown in Figure 6.
- 2. Drill the holes to the specified diameter in the locations shown in Figure 6.

1. Drill this hole to 3/8-inch diameter 2. Drill this hole to 7/16-inch diameter

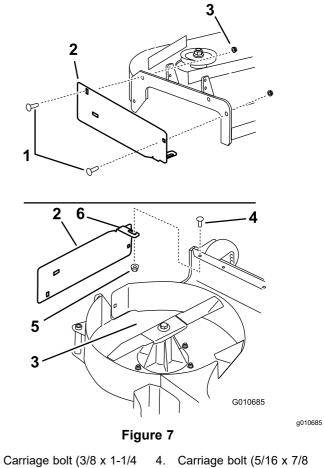

Installing the Discharge and Cover Plate

Parts needed for this procedure:

1	Discharge plate
1	Cover plate
2	Carriage bolt (3/8 x 1-1/4 inches)
1	Carriage bolt (5/16 x 7/8 inch)
2	Small flange nut (3/8 inch)
1	Flange nut (5/16 inch)
2	Large flange nut (3/8 inch)
2	Carriage bolt (3/8 x 1 inch)

Procedure

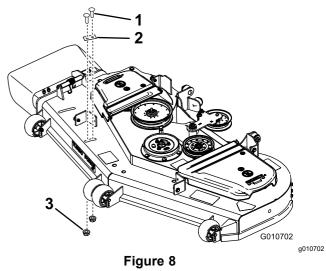

- 1. Install the discharge plate to the outside of the mounting bracket with 2 carriage bolts (3/8 x 1-1/4 inches) and 2 small flange nuts (3/8 inch) as shown in Figure 7.
- Install the tab to the inside of the mower deck 2. with 1 carriage bolt (5/16 x 7/8 inch) and 1 small flange nut (5/16 inch) as shown in Figure 7.

inches) 2. Discharge plate

1.

- 3. Small flange nut (3/8 inch)
- inch)
- 5. Flange nut (5/16 inch)
- 6. Ensure that the tab is positioned inside the mower deck.
- 3. If you have the slot shown in Figure 8, install the cover plate using 2 carriage bolts (3/8 x 1 inch) and 2 large flange nuts (3/8 inch).

- 1. Carriage bolt (3/8 x 1 inch) 3. Large flange nut (3/8 inch)
- 2. Cover plate

8 Installing the Baffles

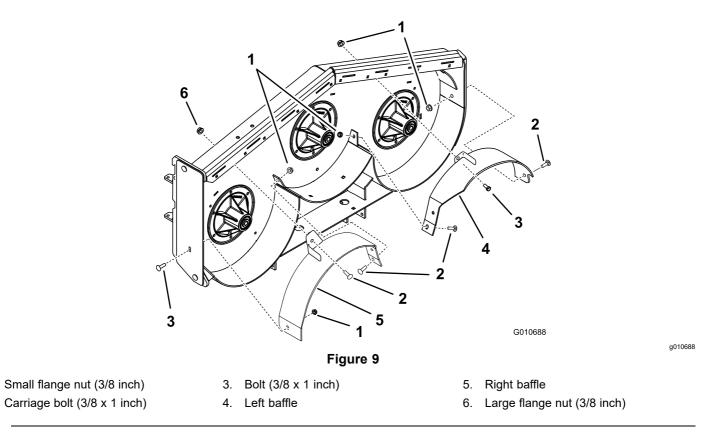

Parts needed for this procedure:

1	Left baffle
1	Center baffle
1	Right baffle
7	Small flange nut (3/8 inch)
6	Carriage bolt (3/8 x 1 inch)
2	Bolt (3/8 x 1 inch)
1	Large flange nut (3/8 inch)

Procedure

Note: Loosely install the baffles to align the baffles with all holes in the mower (Figure 9).

- 1. Position the right baffle into the mower.
- 2. Loosely install the right baffle to the discharge plate with 1 carriage bolt (3/8 x 1 inch) and a small flange nut (3/8 inch) as shown in Figure 9.
- 3. Loosely install the right baffle to the top of the mower deck with 1 carriage bolt (3/8 x 1 inch) and 1 large flange nut (3/8 inch) as shown in Figure 9.
- 4. Loosely install the right baffle to the mower deck with 1 carriage bolt (3/8 x 1 inch) and 1 small flange nut (3/8 inch) as shown in Figure 9.
- 5. Position the left baffle into the mower.
- 6. Loosely install the left baffle to the top of the mower deck with 1 bolt (3/8 x 1 inch) and 1 small flange nut (3/8 inch) as shown in Figure 9.
- 7. Loosely install the left baffle to the mower deck with 2 carriage bolts (3/8 x 1 inch) and 2 small flange nuts (3/8 inch) as shown in Figure 9.
- 8. Position the center baffle into the mower.
- 9. Loosely install the center baffle to the left baffle with 1 carriage bolt (3/8 x 1 inch) and 1 small flange nut (3/8 inch) as shown in Figure 9.

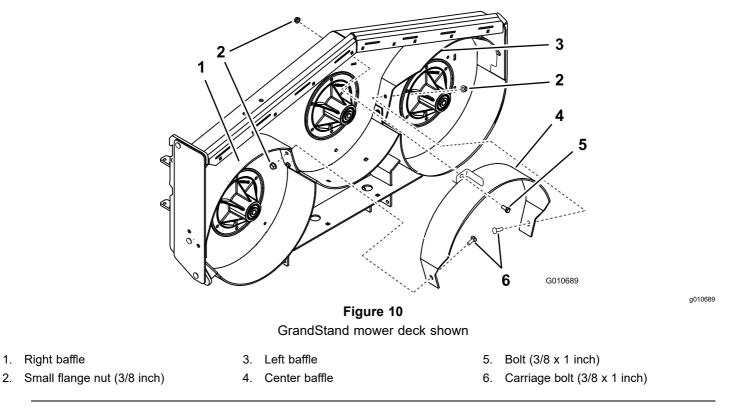

10. Loosely install the center baffle to the right baffle with 1 carriage bolt (3/8 x 1 inch) and 1 small flange nut (3/8 inch) as shown in Figure 10.

1. 2.

2.

Loosely install the center baffle to the top of the mower deck with 1 bolt (3/8 x 1 inch) and 1 small flange 11. nut (3/8 inch) as shown in Figure 10.

9

Installing the Kickers

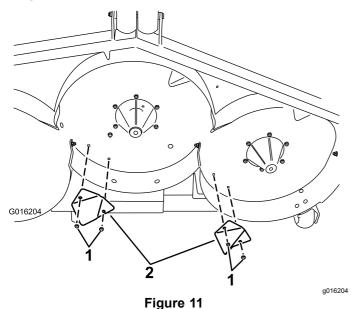

For 72-inch Mower Decks

Parts needed for this procedure:

2	Kickers
4	Carriage bolt (5/16 x 7/8 inch)
4	Locknut (5/16 inch)

Procedure

Install and secure the kickers using 4 carriage bolts $(5/16 \times 7/8 \text{ inch})$ and 4 locknuts (5/16 inch) as shown in Figure 11.

1. Carriage bolts (5/16 x 7/8 2. Kickers inch)

No Parts Required

Procedure

- 1. Tighten all nuts and bolts for the baffles; refer to the Installing the Baffles sections.
- 2. **For GrandStand mowers,** lower the machine, remove the plastic from the hydraulic tank, and connect the battery.
- 3. **For GrandStand mowers,** place the battery onto the machine.
- 4. Secure the battery with the hold-down plate, J-bolts, and locknuts.
- 5. Install the positive (red) battery cable to positive (+) battery terminal with a nut, washer, and bolt.

Slide the rubber cover over the post.

6. Install the negative battery cable and ground wire to the negative (-) battery terminal with a nut, washer, and bolt.

Slide the rubber cover over the post.

Installing the Recycler Blades

Parts needed for this procedure:

3 Recycler blade (sold separately)

Procedure

- 1. Install the 3 recycler blades; refer to the *Operator's Manual*.
- 2. Rotate the blades and ensure that there is clearance between the blades and baffles.

If there is interference, loosen the baffle and reposition it.

Notes:

Count on it.
