Installation Instructions

Installation

Loose Parts

Use the chart below to verify that all parts have been shipped.

Procedure	Description	Qty.	Use
1	No parts required	_	Prepare for installation.
	Beacon light	1	
	Beacon wire harness	1	
	Beacon rod	1	
	Electric connector	1	
	Bolt	2	
	Small plate	1	
	Nut	4	
	Union fitting 1		
•	U-bolt	1	In tall the Lance
2	Washer	4	Install the beacon.
	Bolt	1	
	Belleville washer	2	
	Washer	2	
	Nut	2	
	Support bracket	2	
	Rubber plug	1	
	Rocker switch	1	
	Beacon switch	1	
^	Wire harness	1	
3	Cable ties	8	Install the wire harness.

1

Preparing for Installation

No Parts Required

Procedure

Note: Retain all removed parts for later installation unless otherwise noted.

 Park the machine on a level surface, lower the attachment, shut off the engine, engage the parking brake, and remove the key.

2. Disconnect the negative (-) battery cable from the battery; refer to the electrical system maintenance section of the traction unit *Operator's Manual*.

2

Installing the Beacon

Parts needed for this procedure:

1	Beacon light
1	Beacon wire harness
1	Beacon rod
1	Electric connector
2	Bolt
1	Small plate
4	Nut
1	Union fitting
1	U-bolt
4	Washer
1	Bolt
2	Belleville washer
2	Washer
2	Nut
2	Support bracket
1	Rubber plug
1	Rocker switch
1	Beacon switch

Procedure

 Install the support bracket to the right side of the rollbar using the U-bolt, 2 washers, and 2 nuts.

Note: The top surface of the bracket should be approximately 180 mm (7-3/32 inches) from the front of the rollbar.

Instal the support bracket to the install support bracket with a screw, 2 washers, 2 Belleville washers, and a nut (Figure 1).

Note: Refer to Figure 1 for the support bracket orientation.

- 3. Assemble the beacon light with the electric connector, rubber plug, beacon rod, and the union fitting (Figure 1).
- 4. Install the beacon-light assembly to the support bracket with 2 bolts, the small plate, 2 washers, and 2 nuts (Figure 1).

- . Beacon light
- 2. Electric connector
- 3. Rubber plug
- 4. Beacon rod
- 5. Union fitting
- 3. Washer
- 7. Bolt
- 8. Nut
- 9. Washer

- 10. Support bracket
- 11. Washer
- 12. Belleville washer
- 13. Support bracket
- 14. U-bolt
- 15. Nut
- 16. Bolt
- 17. Small plate

5. Install the beacon switch and rocker switch (Figure 2).

Installing the Wire Harness

Parts needed for this procedure:

	1	Wire harness
ĺ	8	Cable ties

Procedure

- 1. Route the harness through the union fitting (Figure 1).
- 2. Route the red and black wire to the 2-pin holder and secure it.
- 3. Connect 2-pin connector to the electric connector.
- 4. Secure the wire harness with cable ties shown in the following locations:

Figure 3

1. Secure harness to the rollbar

2. Secure harness here

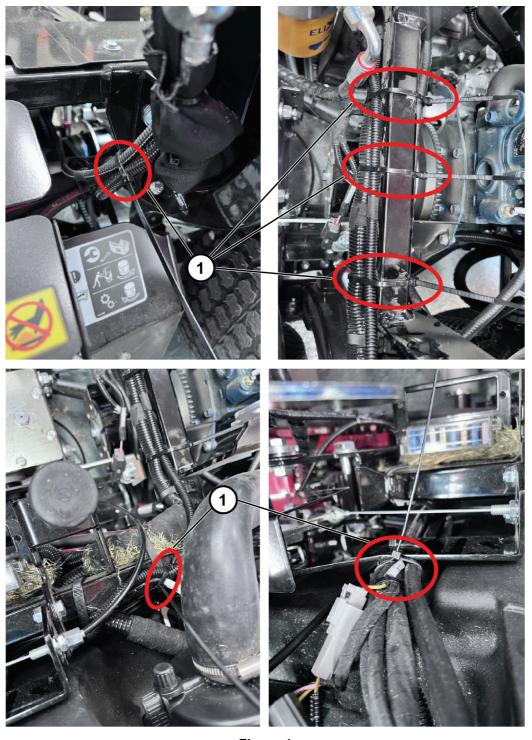

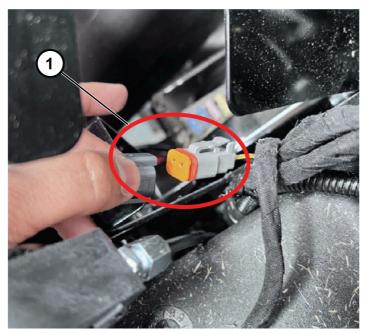

Figure 4

g466350

1. Cable ties

5. Connect the 2-pin connector from from the beacon wire harness to the connector on PLH600 machine wire harness.

g466351

Figure 5

- 1. 2-pin connector
- 6. Loosen the console plate, remove the plug, install the rocker switch, and install the light switch into the console.
- 7. Connect 2-pin connector to the light switch and secure the console plate with the previously removed bolts.

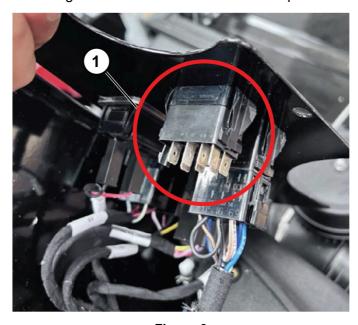

Figure 6

g466352

- 1. Beacon switch installed in the console plate
- 8. Connect the battery; refer to the electrical system maintenance section of the traction unit *Operator's Manual*.

Operation

Controls

Beacon Switch

Press the beacon switch to the ON position to activate the beacon.

Figure 7

g466353

Maintenance

- Replace all worn or damaged parts with genuine Toro parts.
- Periodically check that all lights are working.
- Ensure that the headlights are adjusted correctly.
- Clean the lights daily.

Important: Do not use solvent-based cleaning products.
