Groundsmaster® 3000 - 82 Inch Contour Deck

<u>Model/Serial Range:</u>	<u>Model Number:</u>	<u>Serial Numbers:</u>
	30724	70001-70204

Subject: Rework of Anti-Scalp Cups to prevent failure.

The Anti-Scalp Cups on the 82 Inch Contour Deck may become damaged if the Cups make regular contact with the ground, particularly when operated at low heights of cut or in extreme undulations. To prevent this damage, a heavier Anti-Scalp Cup has been developed and will be used to rework all decks listed in the Serial range listed above. Decks outside of the Serial range listed already include the heavier Anti-Scalp Cups.

Contact your local Toro Distributor for further details.
