

Customer Service Bulletin Commercial Business Group

SAFETY ALERT

ST160 Skid/Trailer Sprayer

Model/Serial Range: **Model Number:**

41411

Serial Numbers:

70101-80173

Subject: **Quick Couplers in the pressure circuit may unlatch**

The Quick Couplers used in the pressure circuit of the spray system do not include a positive locking device and could accidentally unlatch while the system is pressurized. If a Quick Coupler becomes unlatched, the contents of the sprayer tank will be immediately expelled to the ground and may splash onto bystanders.

A replacement Quick Coupler with Locking Latch Pins, as shown below, is available for installation at no charge through your local Toro distributor. DO NOT use non-locking Quick Couplers in the pressure circuit. Contact your local Toro distributor for details regarding this program.

WARNING: Failure to comply with this bulletin may lead to personal injury.

**Replace this Quick Coupler, if
found in the pressure circuit**

**Replacement Quick Coupler
with Locking Latch Pins**
