Workman[®] 2100 Series

<u>Model/Serial Range:</u>	<u>Model Number:</u>	<u>Serial Numbers:</u>
	07253	200000101-200001199
	07253TC	200000101-200001199

Subject: Brake System Improvement - Rework

The brakes for the Workman 2100 were designed to meet the special needs of the Turf Care Industry which limits the aggressiveness of the brakes to prevent lock-up and turf damage. The braking performance may not fully meet all customers' performance expectations.

Contact your local Toro distributor for details regarding the Factory Rework Program for installation of the Brake System Improvement Kit.
