

Cylinder Kit

Groundsmaster[®] 455-D

Model No. 106-1062

Parts Catalog

Ordering Replacement Parts

To order replacement parts, please supply: the part number, the quantity, and the description of each part desired.

Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form **a:b**. The **a** represents the reference number of the entire service assembly and the **b** represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number **6**, the tire by **6:1**, the valve by **6:2**, and the wheel by **6:3**. When you order the assembly identified by reference number **6**, you receive all parts identified by reference numbers **6:1**, **6:2**, and **6:3**. However, you may also order any part individually.

Reference numbers of this type appear in illustrations and in part lists.

Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form **nX y**. The **n** represents the quantity of the part, the **X** is the multiplication symbol, and the **y** represents the reference number.

For example, in an illustration, the reference number **2X 37** means that two of the parts identified by reference number **37** are indicated.

Sheet No.:A1

Hydraulic Cylinder Assembly No. 106–1033

Ref. No.	Part No.	Qty.	Description
1	106-1058	1	Kit-Seal
☆1:1		1	Ring-Piston
☆1:2		1	O-Ring
☆1:3		1	Ring-Wear
☆1:4		1	O-Ring
☆1:5		1	Ring-Back Up
☆1:6		1	Ring-Snap
☆1:7		1	U-Cup
☆1:8		1	Wiper-Rod
