Parts Catalog

Z Master® Professional 7500-D Series Riding Mower With 72in TURBO FORCE® Side Discharge Mower

Model No. 72076—Serial No. 418599536 and Up

Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form a:b. The a represents the reference number of the entire service assembly and the b represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually. Reference numbers of this type appear in illustration and in parts lists.

Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form nX y. The n represents the quantity of the part, the X is the multiplication symbol, and the y represents the reference number.

For example, in an illustration, the reference number 2X 37 means that two of the parts identified by reference number 37 are indicated.

This exploded view diagram illustrates the assembly of a hydraulic pump. The main components are shown in their relative positions for installation:

- 1**: The main pump housing, shown in two views (top and side).
- 2**: A mounting bracket that fits into the side of the pump housing.
- 3**: A bolt used to secure the mounting bracket to the pump housing.
- 4**: A hydraulic hose with a quick-disconnect coupling at one end.
- 5**: A seal or O-ring that fits into a groove on the pump housing.
- 6**: A small circular gasket or seal.
- 7**: A base plate or mounting flange for the pump.
- 8**: A cable or hose with a connector that plugs into the pump's control system.
- 9**: A cable or hose with a connector that plugs into the pump's control system.
- 10**: A cable or hose with a connector that plugs into the pump's control system.
- 11**: A bolt used to secure the pump housing to the base plate.
- 12**: A mounting bracket for the pump housing.
- 13**: A bolt used to secure the mounting bracket to the pump housing.
- 14**: A cable or hose with a connector that plugs into the pump's control system.
- 15**: A cable or hose with a connector that plugs into the pump's control system.
- 16**: A cable or hose with a connector that plugs into the pump's control system.
- 17**: A cable or hose with a connector that plugs into the pump's control system.
- 18**: A cable or hose with a connector that plugs into the pump's control system.
- 19**: A small bolt or screw used for assembly.

Fuel Injection Valve Assembly (continued)
