4. Press  to cancel rain delay. Both  and  icons will disappear from the LCD display once rain delay is canceled.

Reset Wi-Fi Module

You can reset or re-establish WiFi communication by unplugging the Wi-Fi module from the RXC and connecting it back after 10 seconds. To connect smart devices to RXC using Wi-Fi, you must download Toro's Oasis irrigation management App. The RXC requires a Wi-Fi module in order to pair with Oasis App. The RXC-WIFI is sold separately.
