PRODUCT CHANGES

In an effort to make improvements available to TORO owners as quickly as possible, minor changes are incorporated into Toro's products from time to time that do not become immediately shown in the Parts Catalog. If such a change apparently has been made in your unit, which is not reflected in your manual, see your TORO Distributor or his Authorized TORO Service Dealer for information and part numbers.

IDENTIFICATION AND ORDERING

Model and Serial Numbers

The 21" H.P. Commercial Side Discharge has two identification numbers: a model number and a serial number. The two numbers are stamped on a plate which is located on Housing between the rear wheels. In any correspondence concerning the 21" H.P. Commercial Side Discharge, supply model and serial numbers to assure that correct information and replacement parts are obtained.

To order replacement parts from an Authorized TORO Distributor, supply the following information:

1. Model and serial numbers of the 21" H.P. Commercial Side Discharge.
2. Part number, description, and quantity of part(s) desired.

NOTE: do not order by reference number if a parts catalog is being used; use the PART NUMBER.
