

Jack Stand Kit

Groundsmaster® 7200/7210 Traction Units

Model No. 30375

Installation Instructions

107-3969

1. Warning—read the *Operator's Manual*.
2. Crushing hazard, mower—engage the parking brake, stop the engine, and remove the ignition key before working under the mower. Always use jack stands with the jack.

1. Align the holes in the jack mount with the holes in the front of the carrier frame (Fig. 1)
2. Secure the jack mount to the front and underside of the carrier frame with (5) carriage screws and nuts (Fig. 1).
