Subject: Availability of seat adjuster assembly (51-0790) lever return spring

Bulletin Type and Status: **Information Only: Final Release**

Situation: Important Information

The seat adjustment lever utilizes a spring to keep itself engaged so the seat stays in position. This spring has not been available as a service part, so the complete adjuster assembly had to be purchased.

Correction: The seat adjuster lever spring (115-5397) is now available as a service part from your Toro Distributor.
