

# Side Bagger Finishing Kit

## TITAN ZX6000 Series Zero-Turn-Radius Riding Mower

Model No. 119-3458

### Installation Instructions

**This kit requires the simultaneous installation of other kit(s) to function properly. Contact your Authorized Service Dealer to obtain the corresponding necessary parts. For more information, visit us at [www.Toro.com](http://www.Toro.com).**

**Note:** This kit contains the necessary parts for the Soft Bagger for 36in and Larger Fixed and Floating Deck Mid-Size Mowers to be installed on mower decks for some Titan models. The complete installations instructions can be found with the Soft Bagger kit. The instructions below detail how the part(s) in this kit are to be substituted.

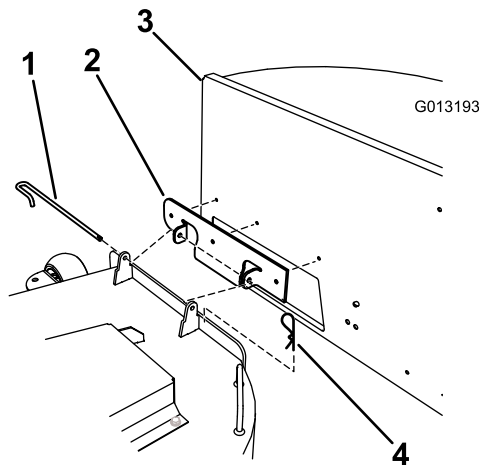

### Loose Parts

Use the chart below to verify that all parts have been shipped.

Description	Qty.	Use
Mounting bracket	1	Installation
Hair pin cotter	1	

### Installation

Install the bracket included in this kit in place of the mounting bracket during the *Assembling the Bagger* procedure during the Setup section of the Soft Bagger kit. Install the new bracket as shown Figure 1. Secure the bagger to the deck using the existing rod and secure it with a hair pin cotter.
