Form No. 3369-121 Rev A

Replacement Radiator Kit

Groundsmaster 3280-D Traction

Model No. 119-4847

Installation Instructions

Installation

Important: On Groundsmaster 3280–D models with serial numbers prior to 311000001, the bottom (4) radiator mounting holes must be drilled in the radiator support to complete the installation.

To update the radiator support, proceed as follows:

- Loosely mount the top of the radiator to the top (2) mounting holes in the radiator support.
- With the radiator positioned squarely within the support, push the radiator upward to the top of the slots and tighten the screws and nuts.
- Using the radiator mounting bracket as a template, mark the remaining hole locations on the radiator support.
- Drill 19/32 inch diameter holes in the radiator support at the locations marked.
- Complete the installation of the radiator.
