PRODUCT CHANGES

In an effort to make improvements available to TORO owners as quickly as possible — minor changes are incorporated into Toro's products from time to time that do not become immediately shown in the Parts Catalog. If such a change has been made in your unit — which is not reflected in your manual — see your TORO Distributor or his Authorized TORO Service Dealer for information and part numbers.

IDENTIFICATION AND ORDERING

MODEL AND SERIAL NUMBERS

The Rake—O—Vac has two identification numbers; a model number and a serial number. The two numbers are stamped on a plate which is located on the left side of the frame behind the hitch. In any correspondence concerning the Rake—O—Vac — supply model and serial numbers to assure that correct information and replacement parts are obtained.

To order replacement parts from an Authorized TORO Service Dealer — supply the following information:

1. Model and serial number of the Rake—O—Vac.
2. Part number — description — and the quantity of part(s) desired.

NOTE: Do not order by reference number if a parts catalog is being used; use the PART NUMBER.
