Form No. 3374-980 Rev B

Tire Chain Kit

Snowthrowers with 16in (4.80-8) Tires

Model No. 38215

Installation Instructions

Installing the Chain

1. Block up the rear of the snowthrower frame so that the wheels are off the ground.
2. Remove the pins that secure the wheels to the axles and remove the wheels.
3. Lay the chains out flat with the locking link to the outside.
4. Wrap the tire chains around the tires, hooking the inside links and locking the outside links.

   Note: For easier installation and better traction performance, insert the chain links in between the tire lugs as best as possible.
5. Pinch the inside links closed.
6. Slide the wheels onto the axles and secure them with the pins previously removed.
7. Attach the clip to the side of the machine with the screw provided to prevent the cable from catching on the tire chains (Figure 1).
8. Check that the chains are tight after use.
