

## Service Interval Reset Procedure

**Product:** Groundsmaster® 5900 & 5910

**Nov 21, 2012**

**Affected Units:**

**Models:**

**Serial Numbers:**

31599

280000001 and Up

31598

280000001 and Up

**Situation:**

The Groundsmaster® 5900-D Owner's Manual does not show how to reset the service interval on the Info Center. This procedure is documented below.

**Correction:**

1. Press and hold the far right button on the Info Center.

## Service Interval Reset Procedure

2. The Main Menu screen will come up. Select SERVICE using the 2 buttons on the left; press the button below the right arrow to continue.

3. Select HOURS and press the button below the right arrow.

## Service Interval Reset Procedure

4. Press the button below RESET HOURS.

5. Select the HOURS for the appropriate next service time and press the button below the right arrow. A check mark will appear once it has been reset. When finished, press the button below the exit icon (picture of a door open) to return to the main screen, or press cancel to exit.
