Installing the Shock Absorber

1. Turn off the machine and allow it to cool.
2. Disconnect the negative battery cable from the battery.
3. Locate the wheel well of the front end of the machine.

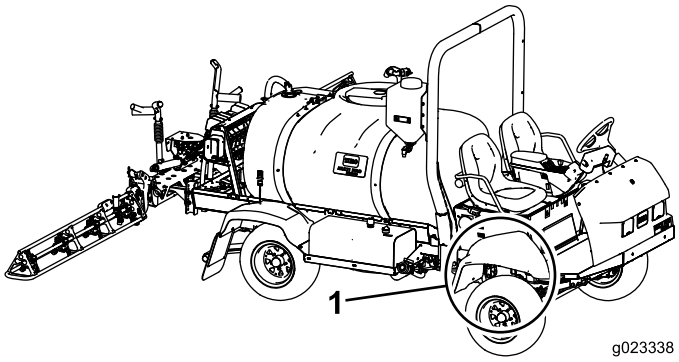

Figure 1

1. Wheel well

4. Raise the front end of the machine up, and support the front end with a suitable jack stand.
5. Remove the old shock absorber by unscrewing the nuts and bolts from the shock absorber (Figure 2 and Figure 3).
