

BAGGER CONVERSION KIT

MODEL #37-O8BL01 TO MODEL #47-08BL01

CONVERSION INSTRUCTIONS

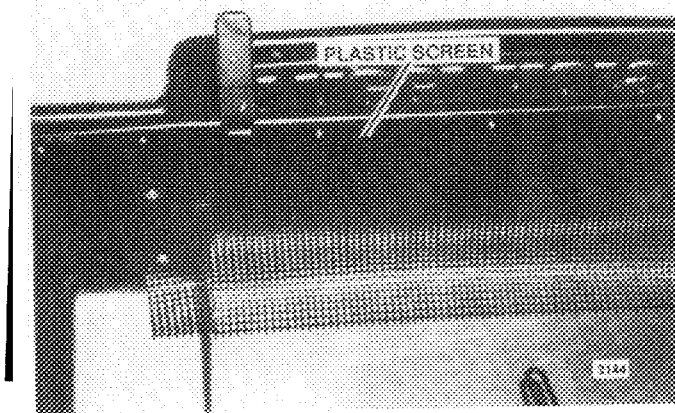

Read this instruction sheet completely and then proceed with assembly. Find Operator's Manual Supplement sheet #810836R1 and follow instructions on page 1.

NOTE: When installing quick attach bracket as shown in Figure 3, some tractors were shipped with frame spacers in front holes of tractor frame (Fig. 1). Relocate spacers in rear holes and acquire and install new bolts and nuts in front holes of frame. **Do Not Remove Mower Discharge chute.**

Note: Metal screen must be installed on top assembly.

Before installing top assembly on quick attach bracket, remove plastic screen and rivets from top by drilling top of rivet heads away from body of rivets with 3/16" drill and replace with supplied metal screen and rivets (Fig. 2 & 3).

Complete installation using front page of Operator's Manual Supplement #810836R1 and Operators Manual #810813R1.

Remove overlay from Model and Serial Number Plate (Fig. 4). Install new supplied Model and Serial Number Plate and Overlay on top of original plate.

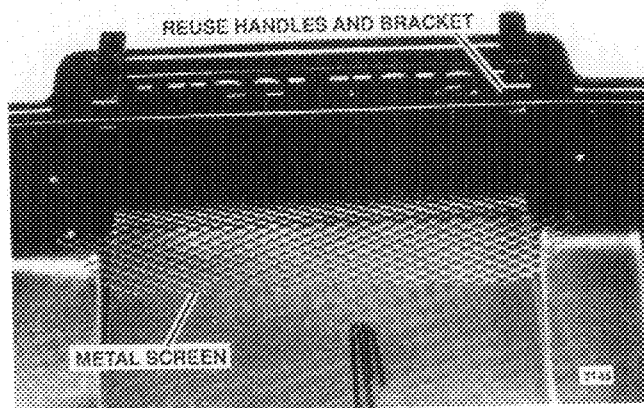

FIG. 3 Install Metal Screen

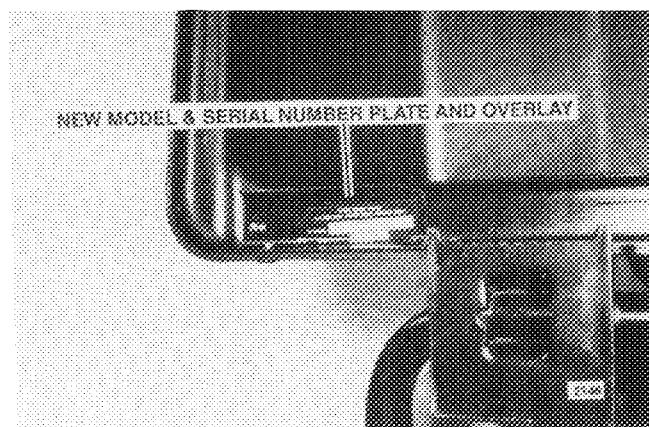

FIG. 4 Install New Model And Serial Number

Use Operator's Manual #810813R1 and Supplement #810836R1 for future bagger Removal, Installation, Operation, Maintenance and Storage procedures.
